The role of the Community Safety Partnership

- The Hounslow Community Safety Partnership was established in 1994 to improve community safety and reduce crime and disorder.

- Hounslow Community Safety Partnership (HCSP) is the multi-agency partnership responsible for reducing crime, disorder and substance misuse in the London Borough of Hounslow.

- Its objective is to make Hounslow a safer place in which to live, work and visit which it does by focussing upon delivering safer communities, safer neighbourhoods, tackling the harm from alcohol and drugs, supporting young people and encouraging a cohesive community.

- As a result of their work, within Hounslow Borough, there have been reductions in crime year on year for the past six years.
Along with other supporting partners (listed at the end of presentation), HCSP brings together key local agencies including:

- London Borough of Hounslow
- Metropolitan Police Service (Hounslow Division)
- Hounslow district of the National Probation Service
- Hounslow Primary Care Trust
- London Fire and Emergency Planning Authority
“5. Invest £250,000 and work with police and other partners to improve community safety…

Crime and the fear of crime are some of the main concerns you have raised with us. To tackle this effectively we need to work with the police and local community to fight crime at the local level.

To do this we have created five new neighbourhood community safety co-ordinators to work with you and your local community to tackle crime. These co-ordinators are based in local police stations across the borough so they can work closely with the police and our partners to take action against perpetrators of crime. They will also work with local people to identify local problems so you can be sure they are being tackled.”
Neighbourhood Community Safety Coordinators.

The five neighbourhood community safety coordinators are responsible for:

- taking the lead role in coordinating work around reducing crime.
- anti-social behaviour.
- alcohol and drugs by working with partners and residents in a designated area of the borough.
Neighbourhood Community Safety Coordinators.

• work in partnership with various agencies including residents to ensure an integrated response to crime, anti-social behaviour, alcohol and drugs problems.

• develop a range of innovative ways to promote community involvement and engagement in the community safety agenda reassuring people that crime is being tackled swiftly in their area.

• ensure diverse communities and hard to reach groups are also engaged in the community safety agenda.

• apply a problem solving approach to tackling neighbourhood issues.

• build public confidence through communication, publicity, visible and effective delivery of community safety initiatives in local neighbourhoods.
The Neighbourhood Community Safety Coordinators are based out of the 5 police stations across the borough, working alongside the 5 inspectors in:

- Hounslow Central
- Feltham and the west Area
- Heston and Cranford
- Chiswick
- Brentford and Isleworth
Work taking place in Heston and Cranford
